IDENTIFY | VERIFY | ACCOUNT

People Badging

Professional Credentials. Nationwide Interoperability.

Create consistent badges for your organization and put them to work for identification, equipment assignment, and personnel tracking.

One Badge. More Possibilities.

Start with a simple identification and expand into more advanced applications as your needs grow. Organizations can tailor how they use their badges and remain fully interoperable with other agencies and organizations using Salamander.

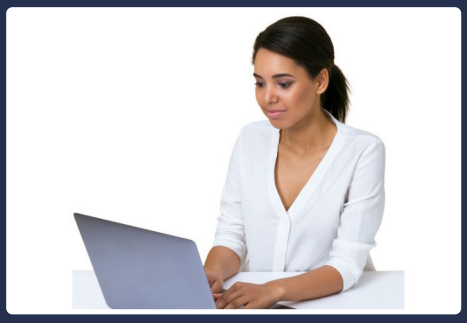
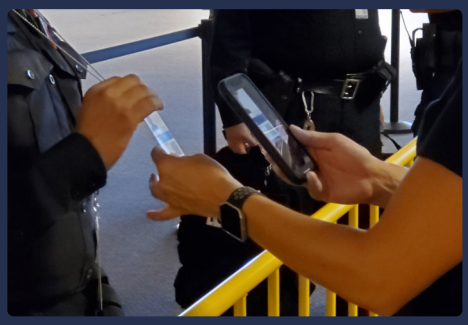
Simple To Use And Vastly Powerful



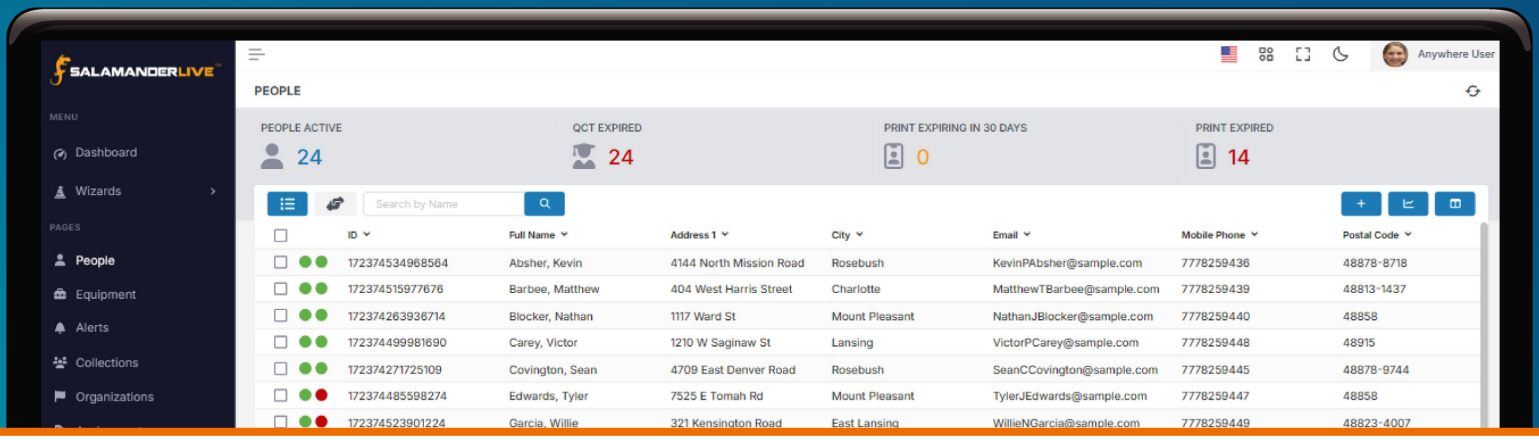
Create a Profile
With the proper permissions and just a few keystrokes, the profile is created.

Print a Badge
Securely control where badges can be printed for distribution.



Use the Badge for Additional Accountability
During events, track and assign equipment, and much more.

Salamander Created the Industry Standard for Responder Badge Layouts



Expand What Your Credential Can Do For You:

SELF REGISTRATION
Speed up onboarding by empowering people to manage their own profile details.

ID DESIGNER
Build custom card layouts for something more specific with ID DESIGNER.

VISITOR MANAGEMENT
Account for all visitors from check-in to check-out with actionable accountability data.

PLANS & EVENTS MANAGEMENT
Instantly add workforce into your planned or active events.

TAG APP
Give users a digital version of their TAG that functions just like the printed one.

EQUIPMENT & INVENTORY MANAGEMENT
Issue, return, consume, and audit all your equipment, both non-consumables and consumables.
