

PLANS Feature

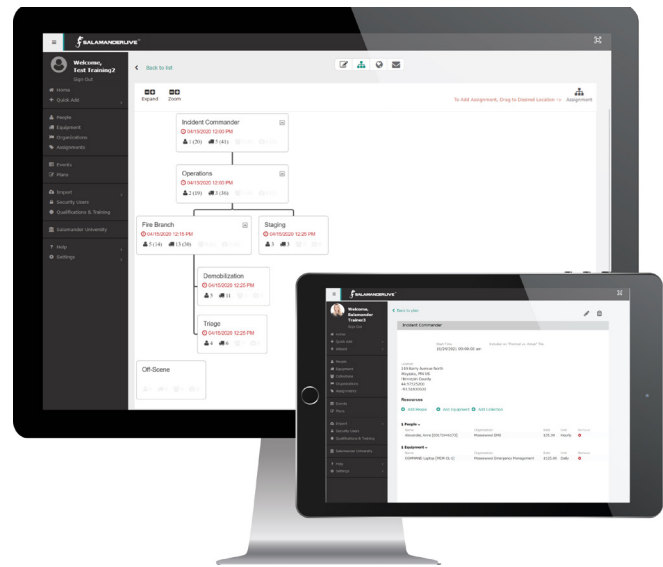

Save Valuable Time with Event Pre-Planning

Salamander's PLAN feature allows customers to be proactive and save valuable time. In a moments notice, an organization can activate a plan, turning it into a live event and start accounting for resources immediately.

Within the templates, pre-plan for assignments, personnel, equipment, and collections. To ensure that assignments are properly placed, our mapping feature displays each assignment as a pin on a map so you can easily make any adjustments.

Quickly send out important communication to planned personnel such as needed gear, time and location to meet, and more!

Contact Salamander today for a demo!

Benefits of PLANS:

- Prep unlimited event templates that can be activated multiple times
- Plan templates include pre-planning assignments that includes people, equipment, and collections that are stored in your SalamanderLiveTM database
- Stage assignments with start times and physical addresses
- View all assignment locations on one map
- Email special instructions and communication to pre-planned personnel
- Have visibility to pre-planned resources cost rates (individual or account)
- Once a plan is activated, the entire plan will download into the TRACK APP, including assignments, their start dates and times, and planned resources
- Users with the TRACK APP can indicate whether personnel have checked-in early, on time, or late
- View actual vs planned data on event tiles
