SALAMANDER**LIVE** ™

TAG

- Produce ID badges for staff, students, and even equipment

- Store basic student information in the encrypted TAG, and sensitive information in the cloud database, accessible only to those with permission

- Add linear bar code (student ID) to tag for day-to-day use

- Produce temporary badges

- TAG inventory and equipment for issuance

TRACK

- Staff and emergency responders TRACK students and faculty in real-time during a crisis

- TRACK daily school activities, such as emergency drills, field trips, extracurricular activities, dances, and bus attendance

- Know who has been issued equipment and manage inventory alerts and reports

REPORT

- Pull accurate information to improve communication and decision making during events

- Daily use reports for attendance, meals, after school activities, and more

- Analyze drill activity / times to improve practices

USE THE SYSTEM TRUSTED BY FIRST RESPONDERS

All education credential information can be shared with local first responders creating a common operating picture during incidents. This allows first responders to quickly work with school Administration and begin accounting for students and staff. Increased visibility helps with decision making, reunification efforts, as well as conflict resolution.

IN CASE OF EMERGENCY
During an emergency, account for students and staff by scanning their ID badges. Information is shared with local first responders, who can take immediate action. First responders can also account for students and staff using their own Salamander tracking solutions. The scan shows when, where, and by whom.

FIELD TRIPS / OFF-PREMISES EVENTS & ATHLETICS
Scan ID badges at every touchpoint (from leaving school, to boarding the bus, arriving to destination, to back on the bus, and arriving at school). The scan shows when, where, and by whom.

CLASSROOM ACCOUNTABILITY
A simple scan occurs when students enter school and then when they enter and leave classrooms. The scan shows when, where, and by whom.

TRANSPORTATION / BUSSING ACCOUNTABILITY
Scan student's ID badges when they board and leave the bus. The scan shows when, where, and by whom.

DRILLS
A simple scan occurs when students and staff arrive to the safe zone. The scan shows when, where, and by whom.

TIME & ATTENDANCE
A simple scan occurs when staffing enter school and then when they exit the school.

ON-PREMISES EVENTS
A scan occurs when both staff and students enter school, confirming their status allowing or denying access.

These workflows examples are customizable

RECOMMENDED SOLUTIONS FOR EDUCATION

SalamanderLive is a scalable tool used to credential and account for all resources. Increase situational awareness during events, emergencies, and day to day activities with real-time reporting. Manage student, staff, and equipment profiles, qualifications, and upload documents. All information collected in the field syncs to SalamanderLive to create a common operating picture.

Administrative Accountability
- Student / Staff Management
- Qualification Management
- Training Management
- Document Management
- Asset Management

Scalable Accountability
- Plan Management
- Event Management
- Event Reporting
- Pre-Credentialing
- Just-In-Time Accountability

TRACK APP
Scan ID badges to account for students and staff during emergencies, events, and day-to-day.

INVENTORY APP
TRACK equipment issued to students and staff.
