

## **TAG**

- Create interoperable IDs to TRACK all firefighters, companies, volunteers, patients, evacuees, civilians, and equipment
- Manage firefighter and responder qualifications, certifications, rostering, and medical data
- Incorporate collection and personnel tags into manual accountability
- Remotely check-in and view resources on a map to track their location as they respond to an event
- Supports NIMS federal standards

## **TRACK**

- TRACK all resource activity throughout an event in real-time
- Utilize tablets and smartphones for mobile tracking
- Manage accountability in comms-in and comms-out environments
- Instantly TRACK accountability efforts with CAD integration
- Utilize planning tools to quickly add resources to planned assignments during an event

## **REPORT**

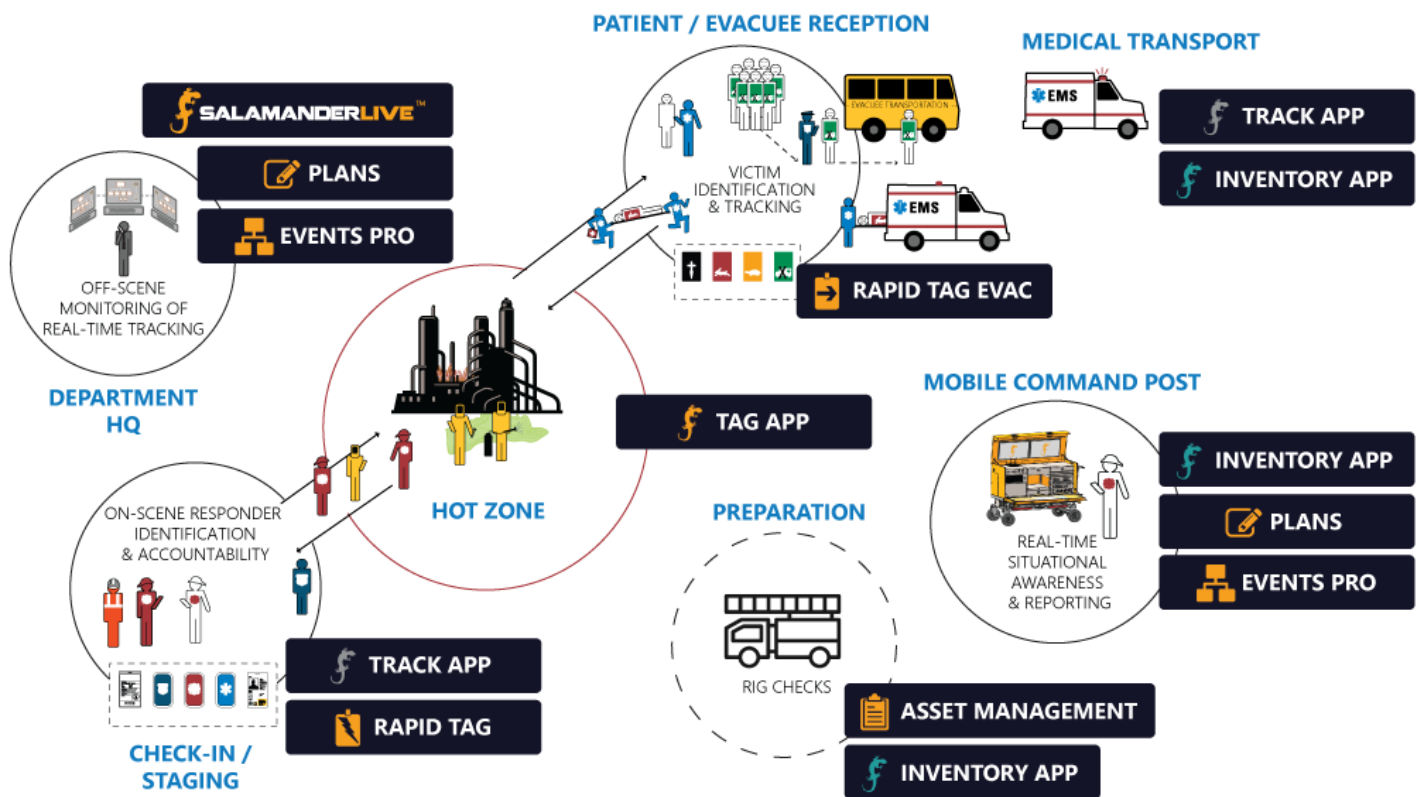

- Create detailed incident reports during and / or after an event for debriefing
- Run real-time, accurate reports on assets to get a complete picture of their location, status, condition, etc.
- Information collected in the field is synced to SalamanderLive to easily pull in depth reports
- Have situational awareness with off-scene activity

## **EXAMPLES OF SALAMANDER IN USE**

- **Creating an official department ID badge**
- **Accounting for personnel and collection assignment every day, every call**
- **Shift-by-shift collection / unit management**
- **Completing daily and weekly rig checks**
- **Generating accurate event / incident cost reports**
- **Accounting for equipment and inventory issuance, inspections, maintenance, etc.**

**SCAN ME**

SalamanderLive is a scalable tool used to credential and account for all resources. Increase situational awareness during large-scale events or day to day activities with real-time reporting. Manage personnel and equipment profiles, qualifications, and upload documents. All information collected in the field syncs to SalamanderLive to create a common operating picture.

## EVENTS PRO

**ICS Chart:** Create / edit assignments and resources in an ICS chart.

**Roster:** View all resources affiliated to an event.

**GIS MAPPING:** View the physical location of assignments and resources.

**Resource Timer:** Set specific individual timers and warnings for personnel.

## PLANS

Pre-plan assignments and resources. Email credentials to resources. View actual vs planned data within an active event.

## TAG APP

Allow personnel to check-in and check-out of events from their personal phone. View real-time whereabouts on GIS maps.

## TRACK APP

TRACK resource assignment and location by scanning tags or downloading resources, view a common operating picture, and validate credentials.

## INVENTORY APP

TRACK inventory issuance, returns, and auditing, while ensuring inspections, maintenance, expirations, etc. are never missed.

## ASSET MANAGEMENT

Manage all consumable and non-consumable assets and monitor their whereabouts.

## RAPID TAG

Rapidly create event specific ID badges to TRACK all volunteers / mutual aid and download activity reports.

## RAPID TAG EVAC

Quickly create evacuee IDs to instantly TRACK location, destination, special needs, and family connections.
