

CAPABILITY STATEMENT

ABOUT US

Located in Traverse City, Michigan, Salamander provides the tools needed to manage events and day-to-day activities. Our INTELLIGENT ACCOUNTABILITY™ suite offers unrivaled situational awareness, painting a common operational picture for everyone involved to get situations under control and save lives. As we were founded by first responders for first responders, our system has evolved to encompass a complete spectrum of users and their scenarios. Salamander's INTELLIGENT ACCOUNTABILITY solutions are protected by U.S. Patents. The system is compatible with smart tags to meet requirements for personal identity verification of workers and contractors (HSPD-12).

REQUIREMENTS BASED

The Salamander system is founded on the federally required National Incident Management System (NIMS) framework.

- Homeland Security Presidential Directive 12 (HSPD-5)
- FEMA 501 National Incident Management System
- National Fire Protection Association (NFPA-1561)
- Homeland Security Presidential Directive 12 (HSPD-12)
- Incident Command System (ICS)
- Federal Information Processing Standards-201 (FIPS-201)

DIFFERENTIATORS

- TAG and TRACK all resources including: volunteers, patients, evacuees, civilians, equipment, and assets
- Personal Identity Verification (SIV) (HSPD-12)
- "Physical to Digital" tracking and reporting of responders, victims, and civilians
- Data is stored directly in the TAG
- Reads linear barcodes, PDF417, QR Codes, TWIC, CAC, FRAC, and RFID
- Provides interoperability between agencies
- The system works in a "comms-out" environment
- Assists in compliance with NIMS and NQS
- Share event data with off-scene agencies in real-time
- Responder / civilian account interoperability
- Account to account event and data sharing
