

Establish consistent, professional badge standards with **PEOPLE BADGING**

Trusted nationwide for badging people, offering the flexibility to use badges as simple identification or expand their use into more advanced applications. Whether verifying identity, accessing encoded people details within a QR code, assigning equipment, or tracking movement throughout an event, organizations can tailor how they use their badges, while remaining fully interoperable with other agencies and organizations using Salamander.

The Nationwide Standard For Secure Badging

- Fire & Rescue
