SALAMANDERLIVE™

TAG

- Create interoperable IDs to TRACK all firefighters, companies, volunteers, patients, evacuees, civilians, and equipment
- Manage personnel qualifications, certifications, rostering, and medical data
- Incorporate collection and personnel TAGs into manual accountability
- Remotely check-in, show availability status, and view resources on a map for up-to-the-minute updates on resource locations
- Supports NIMS federal standards

TRACK

- TRACK all resource activity throughout an event in real-time
- Utilize Android or iOS mobile devices for remote tracking
- Manage accountability in comms-in and comms-out environments
- Instantly TRACK accountability efforts with CAD integration
- Utilize planning tools to quickly add resources to planned assignments during an event

REPORT

- Create detailed incident reports during and / or after an event for debriefing
- Run real-time, accurate reports on equipment to get a complete picture of their location, status, condition, etc.
- Information collected in the field is synced to SalamanderLive to easily pull in depth reports
- Have situational awareness with off-scene activity

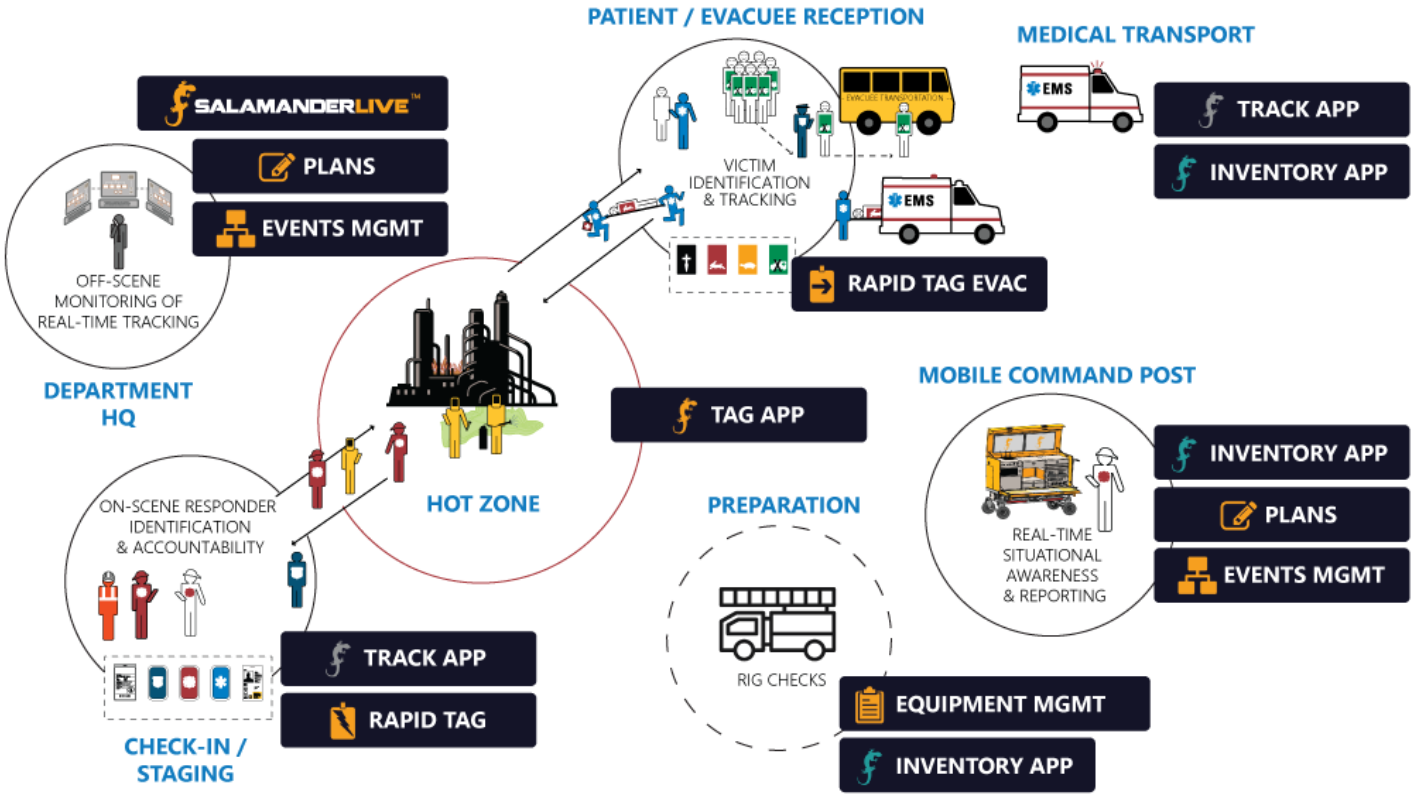

EXAMPLES OF SALAMANDER IN USE

- **Creating an official department ID badge**
- **Accounting for personnel and collection assignment every day, every call**
- **Shift-by-shift collection / unit management**
- **Completing daily and weekly rig checks**
- **Generating accurate event / incident cost reports**
- **Accounting for equipment issuance, inspections, maintenance, etc.**
